

Functional & Performance Testing Template

Model Performance Test

Date	03 October 2026
Team ID	SWTID-2026-1951
Project Name	Implement Client Script & UI Policy (Incident)
Maximum Marks	

Test Scenarios & Results

Test Case ID	Scenario (What to test)	Test Steps (How to test)	Expected Result	Actual Result	Pass/Fail
FT-01	UI Policy behavior on Incident form	Open a new Incident; meet, then un-meet, the condition	Field state changes as configured and reverts when the condition is not met		
FT-02	UI Policy Action - Urgency	Change the controlling field; check Urgency	Urgency field behaves as set by the UI Policy Action		
FT-03	onChange Client Script	Change a monitored field on the form	Guidance appears immediately without submitting the form		
FT-04	onSubmit Client Script (Save Validation)	Save with valid, then invalid, data	Valid data saves; invalid data blocked with a message		
FT-05	onCellEdit Client Script	Edit a list cell inline with valid and invalid values	Valid edits accepted; invalid edits rejected with a message		
PT-01	Response Time Test	Use a timer to check form response to a field change	Should be under 3 seconds		
PT-02	Rapid Field Changes	Change several monitored fields quickly	Form stays responsive with no errors		

PT-03	Multiple Inline List Edits	Edit several list rows one after another	Each edit is validated without lag
